# SAN ANDREA

Embodying the enduring spirit of Venetian design, the San Andrea Collection celebrates the intersection of heritage and modernity. Inspired by the grandeur of Venice—where intricate terrazzo defined stately halls and classic cotto formed the heart of historic architecture—San Andrea pays homage to tradition while embracing contemporary sensibilities.

This collection reinvents timeless cotto, retaining its soulful essence and translating it into a palette tailored for today's interiors. The hues—Bianco, Sabbia, and Naturale—flow effortlessly from soft, luminous whites to the earthy embrace of natural clay, bringing a serene warmth and sense of comfort to any space.

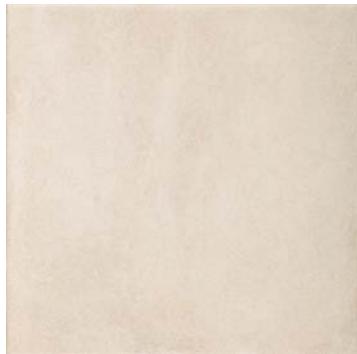

San Andrea is elevated through three distinctive decorative options: Fiori Piccolo, Medio, and Grande. Each features petal motifs drawn from centuries-old patterns, lending an expressive, artisan-crafted character to the tiles. The result is a collection that elegantly connects past and present, infusing contemporary environments with a refined sense of authenticity, artistry, and sophistication.
