

## SUSTAINABILITY CERTIFICATIONS

### EPD AVAILABLE

An Environmental Product Declaration transparently details its environmental impact across its life cycle, from raw material extraction to manufacturing, use, and end-of-life.

### HPD AVAILABLE

Health Product Declarations disclose detailed information on material ingredients and associated health considerations.

### DECLARE

Declare labeling ensures ingredient transparency and excludes chemicals listed on the Living Building Challenge Red List.

### ZERO VOC

Zero VOC indicates that no volatile organic compounds are present, contributing to healthier indoor environments.

### LEED CREDITS

Products with this designation may help building projects earn LEED® certification points for environmental responsibility.

### WELL V2

WELL v2 relates to standards set by the WELL Building Institute, recognizing products that contribute to occupant health, well-being, and overall building performance.

### ISO 17889-1

ISO 17889 is the global standard for sustainable ceramic tiles, confirming environmental performance, resource efficiency, and safety benchmarks.

### ISO 14001

ISO 14001 certifies that a facility has an effective environmental management system, structured to minimize environmental impact and ensure regulatory compliance.

### ISO 9001

ISO 9001 certification signifies an operations' adherence to international standards for quality management systems and continuous process improvement.

### ISO 45001

ISO 45001 demonstrates that an organization has robust systems in place for occupational health and safety management, aimed at reducing workplace risks.
