**ISLA**  
DECORATIVE PORCELAIN

**NEMO**  
TILE + STONE

# ISLA

Isla offers a bold reinterpretation of classic design. Available in an 8"x8" format, the glazed porcelain stoneware tiles come in four glossy, timeless solid colors—White, Sand, Coral, and Green—each complemented by a decorative counterpart.

Featuring soft, flowing shapes and tone-on-tone three-dimensional effects, this collection embodies experimentation with 'deep glazes,' resulting in unique and varied designs. The unevenly poured glaze creates edges reminiscent of handmade craftsmanship, lending a tactile and mold-breaking aesthetic.

Isla combines geometric forms with natural imperfections to evoke an old-fashioned, handcrafted style. Perfect for floors and walls in kitchens, bathrooms, or any space, it invites creative combinations that flow effortlessly, transforming interiors into artful statements.

## Why We Love It

- **Pattern Play:** Endless design possibilities for different patterns with deco pieces to create a distinctly personalized and playful look
- **Not Your Usual Square:** The unique 8"x8" format, not common in traditional square tiles gives a more interesting appeal to the design while creating the illusion of larger patterns
- **Soft Colors:** The subtle white, coral, and sand colors work well with any design style. Easily incorporate into your space while matching with other colors, textures, and decor
- **Light Variation:** The glossy finish of solid pieces provides the look of glazed ceramic while adding dimension. Playing with light, the dual glossy and matte finish of the deco pieces work together to create an unexpected surprise

# COLORS

Isla is available in 4 colors in a glossy finish and 4 matching decos in a dual glossy & matte finish, all in an 8"x8" format. Suitable for low traffic floor and wall applications.
