V3 Variation | Natural Finish

FILO

Classic travertine, an Italian material found in great works of architecture, is reinterpreted on a new surface. A set of veins makes up a linear geometry that updates what nature has shown for thousands of years. The material is available in three formats: 36×72, 24×48, and 12×24 in natural finish. There are four colors in the palette: Bianco and Beige are the most neutral, Greige brings coziness and sophistication in warmer nuances, and Gamma reveals a mix of tones for exclusive projects.
