# RIALTO

Introducing Rialto, a porcelain tile collection that celebrates the artistic legacy of terrazzo while meeting contemporary design needs. Crafted for versatility, the collection includes eight beautifully curated hues: four subtle neutrals providing timeless sophistication and four bolder shades for expressive, playful environments. Rialto's natural matte finish mirrors the tactile softness and visual depth of true terrazzo. Manufactured with grooving and sinking glazes to mimic the look and feel of real terrazzo chips, the result is a dynamic three-dimensional finish.

Designed to meet the demands of modern interiors and exteriors, Rialto is available in a variety of sizes and finishes, making it ideal for residential living areas and commercial and hospitality spaces alike. The matte finish is suitable for high-traffic applications, combining durability and easy maintenance without compromising aesthetic appeal. The subtle neutrals convey effortless elegance, while the brighter colors introduce a fresh, sophisticated vibrancy to any space. With options for seamless indoor-outdoor layouts and the ability to fit within a variety of interior design styles, Rialto empowers those looking to create environments that are both enduring and inspiring.

## Why We Love It

- **Authentic Terrazzo Feel:** Innovative surface technology in the matte finish recreates the dimensional look and inviting touch of hand-laid terrazzo, setting a new standard for realism in porcelain tile.
- **Versatile Color Palette:** Exude classic charm with four neutral options: Ivory, Light, Sand, and Grey. Or play with color with Moon, Sage, Sunset, and Moon, to bring a contemporary energy to terrazzo, perfect for statement-making spaces.
- **Seamless Applications:** Available in a comprehensive range of field tiles, a 2x2 mosaic, coordinating trim pieces, and a 20mm outdoor paver. Rialto makes it easy to achieve cohesive visual flow for true indoor-outdoor living.
- **Perfect for Commercial Spaces:** Rialto's matte and anti-slip finishes are suitable for busy retail settings, or hospitality venues with high foot traffic.
- **Design Flexibility:** Designed with versatility in mind, Rialto supports installation in living rooms, bathrooms, kitchens, and hospitality spaces, empowering creative freedom for both residential and commercial design.
- **Expansive Selections:** Unlike classic terrazzo, Rialto comes in larger format tiles, such as 48"x48", unlocking new creative design options that are rarely achievable with traditional materials.

## Sustainability

### LEED CREDITS

Products with this designation may help building projects earn LEED® certification points for environmental responsibility.

### EPD AVAILABLE

An EPD transparently details its environmental impact across its life cycle, from raw material extraction to manufacturing, use, and end-of-life.

### ZERO VOC

Zero VOC indicates that no volatile organic compounds are present, contributing to healthier indoor environments.

### RECYCLED CONTENT: >30%

Tiles labeled with recycled content contain a verified percentage of materials reclaimed and reused from pre- or post-consumer sources.

### ISO 17889-1

ISO 17889 is the global standard for sustainable ceramic tiles, confirming environmental performance, resource efficiency, and safety benchmarks.
