

SUSTAINABILITY CERTIFICATIONS

EPD AVAILABLE

An Environmental Product Declaration transparently details its environmental impact across its life cycle, from raw material extraction to manufacturing, use, and end-of-life.

DECLARE

Declare labeling ensures ingredient transparency and excludes chemicals listed on the Living Building Challenge Red List.

ZERO VOC

Zero VOC indicates that no volatile organic compounds are present, contributing to healthier indoor environments.

UL GREENGUARD GOLD

UL GREENGUARD Gold certified products meet strict limits on chemical emissions, supporting high standards for indoor air quality.

WELL V2

WELL v2 relates to standards set by the WELL Building Institute, recognizing products that contribute to occupant health, well-being, and overall building performance.

LEED CREDITS

Products with this designation may help building projects earn LEED® certification points for environmental responsibility.

ISO 17889-1

ISO 17889 is the global standard for sustainable ceramic tiles, confirming environmental performance, resource efficiency, and safety benchmarks.

ISO 14001

ISO 14001 certifies that a facility has an effective environmental management system, structured to minimize environmental impact and ensure regulatory compliance.

ISO 9001

ISO 9001 certification signifies an operations' adherence to international standards for quality management systems and continuous process improvement.

ISO 45001

ISO 45001 demonstrates that an organization has robust systems in place for occupational health and safety management, aimed at reducing workplace risks.
