METALMOOD

METALLIC SUBWAY TILE

NEMO
TILE + STONE

METALMOOD

Introducing Metal mood, a bold reimagining of the classic subway tile, where the enduring strength of industrial architecture meets the artistry of contemporary design. In an impressive 4x16" format, Metal mood captures the look of raw materials in four striking metallic tones: Pewter, Iron, Copper, and Lunar.

Each color is available in both a refined, matte metallic surface and a coordinating relief deco piece to add dimension, movement, and architectural intrigue to any space. The subtle textures and intentional imperfections evoke the spirit of hand-worked metal, catching and reflecting light in ways that transform walls into living surfaces.

Whether chosen for its understated gleam or dramatic relief, this collection brings metropolitan sophistication and a modern look to your home or commercial project.

Craft unforgettable interiors with the strength, character, and expressive personality of Metal mood, where every surface is a testament to industrial-inspired elegance.
