

SUSTAINABILITY CERTIFICATIONS

EPD AVAILABLE

An Environmental Product Declaration transparently details its environmental impact across its life cycle, from raw material extraction to manufacturing, use, and end-of-life.

ZERO VOC

Zero VOC indicates that no volatile organic compounds are present, contributing to healthier indoor environments.

LEED CREDITS

Products with this designation may help building projects earn LEED® certification points for environmental responsibility.

BREEAM

Products may contribute to BREEAM certification, a leading building sustainability assessment method globally, promoting lower environmental impact in construction.

ISO 17889-1

ISO 17889 is the global standard for sustainable ceramic tiles, confirming environmental performance, resource efficiency, and safety benchmarks.

ISO 14001

ISO 14001 certifies that a facility has an effective environmental management system, structured to minimize environmental impact and ensure regulatory compliance.

ISO 9001

ISO 9001 certification signifies an operations' adherence to international standards for quality management systems and continuous process improvement.
